# Tree Care Technician

## Madison College One year Technical Diploma

01

Do you like working outdoors?

02

Do you want a hands-on job that changes from day to day?

03

Do you want to make a positive impact on the environment?

04

If you are a hands-on, in-person learner looking for a great career, check us out!

Apply online at:

<https://madisoncollege.edu/academics/programs/tree-care#admission>

The Tree Care Technician program will prepare you for a career in the field of arboriculture and urban forestry. You will learn tree maintenance and management, aerial tree work, plant health care, tree selection and planting, and equipment safety and operation. The program involves practicum and lab components that provide you with real-world application and experience.

Students in the Tree Care Technician program can attend full or part-time.
